

Adding licence key for Bitdefender

For machines that already have Bitdefender installed

1. Open Bitdefender
2. Click towards bottom right “number of days left”
3. “Register your product” window appears
4. Type new key in “licence key” box
5. Select “register now”

You should now see a year’s subscription displayed at bottom

For machines without Bitdefender installed

1. Fully uninstall old antivirus product by either going to the program uninstaller or going to control panel, programs and features and select the antivirus and “uninstall”
2. Download the Bitdefender installer from here <http://www.bitdefender.co.uk/Downloads/>
3. And select Download Now from the Internet Security promo
4. *Make sure you select the right product* - ensure you use **Internet Security** otherwise the key won’t work.
5. Follow instructions to install.
6. Insert key where prompted and then input account details (email address and password)
7. If you don’t have Bitdefender account , select New Account and follow instructions

Your Bitdefender is now installed

For 3 users, insert the product key into each computer.
